JOIN OUR DATABASE
OF PSYCHIATRISTS & HELP OUR HEALTHCARE WORKERS

COVID-19 is causing high levels of stress for health care professionals and presents a risk to their ongoing mental health.

If you are available to provide assistance to frontline healthcare workers during the pandemic, we encourage you to join our database of psychiatrists.

COVID-19 Resources for Members

- COVID-19 information hub
- Practice support during COVID-19
- COVID-19 library
- Advocacy during COVID-19
Following an initiative of the Victorian Branch, our psychiatrists have engaged with their local Committee to deliver services to COVID-19 healthcare workers.

The health and wellbeing of our peers is of paramount importance and amidst a global pandemic, psychiatrists in Victoria are concerned about mental health impacts facing health care workers on the frontlines.

Don’t delay. Please access help from a specialist today

If you are a health care worker and are concerned that you are feeling overwhelmed or just want to check your mental health, please access help using our ‘Find a Psychiatrist’ database. Some of the search options include:

- Appointments available for COVID-19 frontline healthcare workers.
- Psychiatrists offering Group work or therapy for COVID-19 healthcare workers
- Psychiatrists who Bulk-bill healthcare workers during COVID-19
