The Royal Australian and New Zealand College of Psychiatrists (RANZCP) Section of Neuropsychiatry is delighted to present its 11th Annual Neuropsychiatry and Behavioural Neurology Conference. This year's conference will celebrate the 50th anniversary of the opening of the Royal Melbourne Hospital’s Huntington’s disease service, led by Dr Chiu.

Once again, the conference will be held across two days at the Melbourne Brain Centre, taking place from Friday 18 to Saturday 19 November 2022.

The two-day conference program will cover topics of interest to psychiatrists, neurologists, geriatricians and neuropsychologists and include updates on conditions that mimic common neurodegenerative conditions, including Alzheimer’s disease, fronto-temporal dementia, and Parkinsonism. There will also be free paper presentations by trainees on interesting cases relevant to neuropsychiatry or cognitive neurology.

DELEGATE PROFILE

The conference will be attended by approximately 200+ psychiatrists, psychologists, allied health professionals and other medical practitioners with an interest in Neuropsychiatry and Neurology.

VENUE

Melbourne Brain Centre
30 Royal Parade
Parkville VIC 3052
View map

The Melbourne Brain Centre houses researchers of the Florey Institute of Neuroscience and Mental Health, The University of Melbourne, Austin Health and Melbourne Health. It is the largest neuroscience facility of its kind in the southern hemisphere.

Hosted by the RANZCP, this conference has previously been successfully held at this venue six times.
