Stage 1: Adult Psychiatry (mid-rotation) In-Training Assessment (ITA) Form

1. Trainees are required to achieve 2 EPAs each 6-month FTE rotation in order to be eligible to pass the rotation.
 2. Therefore, during the course of Stage 1 trainees **must** achieve the two Stage 1 EPAs **and** two Stage 2 EPAs to fulfil this requirement
Unless they utilise the 'Stage 1, Rotation 1 Exception Rule' which allows for a trainee to pass the FIRST rotation and ITA before achieving any EPAs. This is to allow for flexibility during a period of adjustment for trainees entering psychiatry training.
 3. This rule cannot be applied in any other Stage or rotation, so in rotation **2** trainees **must** attain the minimum of 2 EPAs, regardless of how many were attained in Rotation 1.
 4. All Stage 1 trainees are eligible to achieve the Stage 2 General Psychiatry or Psychotherapy EPAs.
 5. Please refer to the RANZCP website Regulation page: section **4.9** of the *Stage 1 Mandatory Requirements Policy* for further details (in the Training chapter of the regulations). [Pre-Fellowship>2012-Fellowship-Program>Regulations](#)
- Privacy Statement:** Registrar evaluations are held and used in accordance with the College's Privacy Policy Statement. See www.ranzcp.org/privacypolicy

NOTES ON THE USE OF THIS FORM

- The (mid-rotation) In-Training Assessment is formative, not summative. Its purpose is to identify and provide feedback on the trainee's strengths and weaknesses as well as their progress in the rotation.
- This formative assessment may be completed prior to or subsequent to the mid-rotation point, at the discretion of the supervisor, if there are concerns regarding the trainee's progression through a rotation.
- It may be necessary for multiple (mid-rotation) ITA forms to be completed during a rotation.

1. APPROVED TRAINING DETAILS

The Director of Training and/or Principal Supervisor should amend as necessary.
