The following EPA will be entrusted when your supervisor is confident that you can be trusted to perform the activity described at the required standard without more than distant (reactive) supervision. Your supervisor feels confident that you know when to ask for additional help and that you can be trusted to appropriately seek assistance in a timely manner.

### Title

**Demonstrate leadership skills in a multidisciplinary team setting. (Adult)**

### Description

Maximum 150 words

The trainee demonstrates the ability to provide strong, active leadership in a clinical team and in multidisciplinary clinical meetings, eg. clinical review meetings, ward rounds or case conferences.

### Fellowship competencies

### Knowledge, skills and attitude required

Competence is demonstrated if the trainee has shown sufficient aspects of the knowledge, skills and attitude described below.

**Ability to apply an adequate knowledge base**

- Understands the literature on clinical leadership.
- Understands the characteristics of good leaders.
- Understands the roles and responsibilities of other team members.
- Understands the principles of team and group dynamics.
- Understands the concept of clinical governance.

**Skills**

- Exhibits social awareness and the ability to manage professional relationships, including team conflict.
• Demonstrates the ability to lead a multidisciplinary discussion that is focused, client centred and time managed.
• Integrates the information from the case conference to generate a collaborative plan.
• Exhibits self-awareness and self-management relevant to his or her leadership roles.
• Can facilitate or take the lead in making a decision where there is team disagreement that cannot be resolved in a timely manner and evaluate the outcome of this decision.
• Demonstrates the use of feedback in relation to his or her own performance.
• Demonstrates the ability to support the development of other team members.
• Builds partnerships and networks to influence outcomes positively for patients.
• Demonstrates critical and strategic thinking in relation to the systems in which he or she works.
• Navigates sociopolitical environments.
• Demonstrates an ability to effect continuous quality improvement.

Attitude
• Values the contribution of all professionals involved in order to enhance collaborative practice.
• Maintains appropriate boundaries whilst developing leadership role.
• Demonstrates personal integrity and character.
• Demonstrates commitment to high-quality outcomes for patients and carers.

Assessment method
Progressively assessed during individual or clinical supervision, including three appropriate WBAs.

Suggested assessment method details
(These include, but are not limited to, WBAs)
• Mini-Clinical Evaluation Exercise.
• Direct Observation of Procedural Skills (DOPS).
• Professional presentation.
• Feedback from multidisciplinary team members.
