• The case history has been clearly presented.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
• The case history has been appropriately de-identified.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Comments

The framework is intended to guide the overall assessment and ensure consistency across markers. It is not required to achieve a 'pass' in each domain to pass the Addiction Psychiatry Written Case History. Markers should mark each domain to help facilitate their overall assessment recommendation and to provide feedback to trainees.
