The candidate makes reference to the research literature where this usefully informs their arguments. Includes the ability to consider counter arguments and/or argue against the proposition.</i>	Proficiency Level
There is no evidence of logical argument or critical reasoning: points are random or unconnected or simply listed.	0
There is only a weak attempt at supporting the assertions made by correct and relevant knowledge OR there is only one argument OR the arguments are not well linked.	1 2
The points in this essay follow logically to demonstrate the argument and are adequately developed.	3 4
The candidate demonstrates a sophisticated level of reasoning and logical argument, and most or all the arguments are relevant.	5

Fellowship Competency 5. Medical Expert, Health Advocate, Professional – Weighting 25%

<i>The candidate demonstrates a mature understanding of broader models of health and illness, cultural sensitivity and the cultural context of psychiatry historically and in the present time, and the role of the psychiatrist as advocate and can use this understanding to critically discuss the essay question.</i>	Proficiency Level
As relevant to the question or statement: the candidate limits themselves inappropriately rigidly to the medical model OR does not demonstrate cultural awareness or sensitivity where this was clearly required OR fails to demonstrate an appropriate awareness of a relevant cultural/historical context OR fails to consider a role for psychiatrist as advocate.	0
The candidate touches on the expected areas, but their ideas lack depth or breadth or are inaccurate or irrelevant to the question/statement.	1 2
The candidate demonstrates an acceptable level of cultural sensitivity and/or historical context and/or broader models of health and illness and/or the role of psychiatrist as advocate relevant to the question/statement.	3 4
The candidate demonstrates a superior level of awareness and knowledge in these areas relevant to the statement/question.	5

Fellowship Competency 8. Medical Expert, Collaborator, Manager – Weighting 25%

<i>The candidate is able to apply the arguments and conclusions to the clinical context, and/or apply clinical experience in their arguments.</i>	Proficiency Level
Arguments and conclusions appear uninformed by clinical experience (no clinical link) or are contrary or inappropriate to the clinical context.	0
There is an attempt to link to the clinical context, but it is tenuous, or the links made are unrealistic.	1 2
The candidate is able to apply the arguments and conclusions to the clinical context, and/or apply clinical experience in their arguments.	3 4
The candidate makes links to the clinical context that appear very well-informed and show an above average level of insight.	5
