Military and Veterans' Psychiatry Training Program **Resource Booklet**

Military and Veterans' Psychiatry Training Program Resource Booklet

The Military and Veterans' Psychiatry Training Program (MVPTP) seeks to improve access to psychiatrists with training in military and veteran mental health, through its objective to fund ten military and veteran psychiatry registrar training positions.

The program is funded by a grant provided by the Department of Veterans' Affairs (DVA) to the Royal Australian and New Zealand College of Psychiatrists. Training in an MVPTP funded post is for a standard 6-month rotation, you may be offered the opportunity to stay in the post for 2 rotations after which you will move to other opportunities.

MVPTP posts are only open to current RANZCP trainees and Specialist International Medical Graduates (SIMGs) on the pathway to RANZCP Fellowship.

The aims of the MVPTP

- Enhance the capacity of the health care sector to provide high quality training opportunities
- Facilitate the required educational experiences for specialists in training
- Support high quality training posts to build the overall training capacity in the system
- Contribute to improving the medical workforce distribution

MVPTP Posts

Training in a MVPTP post is for a standard 6-month rotation, you may be offered the opportunity to stay in the post for 2 rotations after which you will move to other opportunities.

The program is governed through the Military and Veterans' Psychiatry Training Program Guidelines for Health Services.

MVPTP posts are only open to current Royal Australian and New Zealand College of Psychiatrists (RANZCP) trainees and Specialist International Medical Graduates (SIMGs) on the pathway to RANZCP Fellowship.

Please visit the MVPTP page on the College Website for more information about funding, and a directory of all posts to plan for your next rotations too.

Podcasts

These podcasts are here for you to gain an understanding of a 'Day in the Life' of committee members from the Military and Veterans' Emergency Services Personnel Mental Health Network. The Military and Veterans' Emergency Services Personnel Mental Health Network Committee promotes interest and expertise in the mental health of military veterans, serving armed forces members, and paid and voluntary serving and ex-serving emergency services personnel.

Please visit the Military and Veterans' Emergency Services Personnel Mental Health Network Military and Veterans' Emergency Services Personnel Mental Health Network Committee page for more information including how to sign up to the network.
