Area of practice	Indigenous – Australia	EPA identification	ST2-INDAU-EPA2	
Stage of training	Stage 2 – Proficient	Version	v0.9 (BOE-approved 15/10/12)	
Title	Develop a mental healthcare management plan for an Aboriginal or Torres Strait Islander patient.			
Description	The trainee can develop an innovative and creative mental healthcare management plan for an Aboriginal or Torres Strait Islander patient in collaboration with stakeholders as appropriate. They understand the impact of socioeconomic disadvantage, historical trauma, transgenerational trauma and re-traumatisation on vulnerability to mental illness and the manner in which these factors contribute to barriers to accessing mental healthcare. They consider the availability of standard services in the community and utilise the alternate resources available, including extended family, non-government organisations and informal resources. The trainee has knowledge of the patient's community of origin and cultural beliefs and facilitates incorporation of cultural supports such as traditional healers, Elders and Aboriginal and Torres Strait Islander mental health workers into the care plan.			

Please refer to the EPA handbook's preamble for a more detailed description of the EPA assessment process. The corresponding EPA contains the knowledge, skills and attitude that must be demonstrated by the trainee in order to be entrusted with this activity.
